
Those countries with no sites listed did not have members from their countries present at the meeting, and members present did not feel comfortable prioritising sites for them. Hence, there is no information for those countries. However, those countries with

members have been sent the same form which was filled out at the meeting and they have been asked to carry out the same exercise which was done at the meeting. These sites will be added as responses are received.

SESSION TITLE: HUMAN-ELEPHANT CONFLICT TASK FORCE (HETF)

Chair: K Okoumassou

Rapporteurs: J Ononanga, E Bossou

PRESENTATION: HUMAN - ELEPHANT CONFLICT BIBLIOGRAPHY

The HETF has put together a bibliography of material on all aspects of human-elephant conflict. This

bibliography is available from the AfESG Secretariat on demand.

DISCUSSION OF HETF TERMS OF REFERENCE

The Human-Elephant Conflict Task Force (HETF) is concerned with all issues surrounding the collection and analyses of data, and research related to human-elephant conflict carried out by the African Elephant Specialist Group (AfESG).

As agreed to by the Group, the HETF members are suggested by the AfESG Chair and presented to the members of the Specialist Group for approval each triennium or meeting. If the need arises, the Chair can appoint an acting HETF member until the time arises when the acting member's services are no longer required. The Chair of the Task Force is appointed from within.

All members of the HETF must be actively involved in human-elephant conflict work.

The members of the Task Force are as follows:

Richard Hoare, Chair
Sam Kasiki
Sally Lahm
Moses Kofi Sam
Martin Tchamba
Greg Overton, Secretary

SESSION TITLE: CAPTIVE BREEDING OF ELEPHANTS

Chair: J Waithaka

Rapporteurs: L Osborne, L Saiwana

With increasing frequency, zoos/captive breeding facilities are arguing that their maintenance of African elephants is primarily for elephant conservation reasons

and not primarily to generate viewing revenues. Therefore the AfESG is being asked more and more to make technical statements/judgements as to their worth. A
